

Better Days Ahead for You and Me

(sung to the tune of "This Land is Your Land")

CHORUS

This choice is your choice, this voice is your voice
From when you wake up, to how you live life
We're on a journey to our new culture
Better days ahead for you and me.

As we were walking facility hallways
We saw a vision of what could be someday
We saw community – and home and family
Better days ahead for you and me.

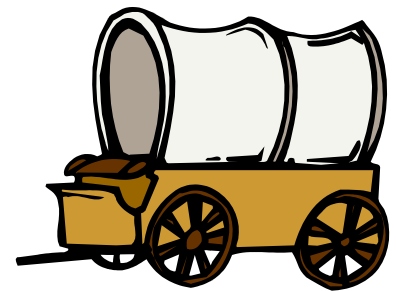

CHORUS

We gather in circles to plan our future
We are all leaders on this new journey
We learn together – gather wisdom from elders
We know there's better days ahead for you and me.

CHORUS

It's Person centered that we are after
We share our stories – our tears and laughter
From one another, we learn together
Seeking better days ahead for you and me.

CHORUS

We're pioneers all on this culture change journey
We gather together on the shores of the Missouri
We come from California, Oklahoma and Ohio
To find those better days ahead for you and me.

CHORUS

So welcome to Missouri – where we say "show me"
the path to guide us along this journey
We'll meet some new friends and find some new ways
To make those better days ahead for you and me.

CHORUS
