The August 2011 National Pioneer Network Conference, in St. Charles, MO, begins our year-long campaign! MC5, Missouri's culture change coalition, is leading the way to have 100% of all skilled long-term care homes in Missouri complete the Artifacts of Culture Change online assessment tool. Gather a multi-disciplinary team together, including direct caregivers, to discuss the information and complete the Artifacts assessment tool. The tool will provide valuable Culture Change comparison data as well as help staff identify areas of potential change.

Complete the tool **TODAY** and help Missouri be the first state with **100% completion** of the Artifacts of Culture Change!!! To access the online information go to:

<http://www.artifactsofculturechange.org/ACCTool/> .
