

Home

A fluid, dynamic and intimate relationship between the individual and the environment

Seven Elements of Home From Judith Carboni (1987)	What can do we?
Privacy <i>We choose to be in and out of contact with others.</i>	
Identity <i>The bonding of person and place- a rooted ness that gives us a deep sense of belonging</i>	
Connectedness <i>A connectedness with people, the place, the past, and with the future</i>	
Safety <i>Because it is predictable, it is a place of security</i>	
Lived Space <i>There is a meaningful experience of our space</i>	
Power/Autonomy <i>Home is our castle– where we have personal freedom and we make decisions-</i>	
Journeying <i>When we are at home we have the ability to journey out- we have a sense of reach–a point of departure</i>
