

National Culture Change Related Organizations

In addition to Pioneer Network, the following national organizations can help your organization with its culture change journey.

Action Pact

Action Pact is a unique culture change company recognized for pioneering the Household Model. Its team of nationally recognized consultants help transform institutionalized living environments into warm, pleasant households or friendly neighborhoods. Changes in physical design and organizational structure, coupled with a strong focus on education and high involvement of all stakeholders, bring about the creation of true home for our elders. Today's older adults want to keep living their lives without compromise, and Action Pact helps make that possible. Residents direct their own lives, experience daily pleasures, and continue to live with meaning and purpose. Organizations already in households reach for Action Pact's strong eLearning offerings from self-paced courses, one day workshops and lively mobile modules. The Eden Alternative®

The Eden Alternative is an international, nonprofit 501(c)(3) organization focused on creating a world that celebrates aging and human potential. Dedicated to creating quality of life for elders and their care partners, wherever they may live, we offer education about person-directed care and consultation services designed to create revolutionary shifts in the culture of care. From the nursing home to the neighborhood street, The Eden Alternative provides a flexible framework for personal and organizational transformation that honors each individual and supports empowerment, growth, and purpose. For more information, visit <https://www.edenalt.org>. To learn more, go to <https://www.edenalt.org/>

The Green House® Project

The Green House Project is a non-profit organization that partners with senior living providers, real estate developers, and advocates to create radically non-institutional nursing homes and assisted living settings that destigmatize aging and humanize care. The organization does this through the development of small-scale, self-contained homes; consultation services that guide progressive-minded providers in the implementation of comprehensive culture change; and tools and resources that ensure sustainability of its innovative model.
